

## **DISTRIBUTED REDUNDANT FLIGHT CONTROL SYSTEM**

Fly-by-wire and automatic control for eVTOLs and autonomous vehicles.

Distributed redundancy with DO178-C, DO254 and DO160-G, compliance for enabling aircraft certification.

### **eVTOL & UAM FLIGHT CONTROLLER**

**REDUNDANCY** 

Model-based design tools enable custom programs and control logics.

**CERTIFICATION** 

Aircraft certification: DO178-C, DO254, DO160-G, ESS, ATR, STANAG, etc.

**USER PROGRAMABLE** 

Model-based design technology to generate custom programs and GNC

#### **MAIN FEATURES**

All Vehicles Plane | Multi | Heli | Autogiro | VTOL | USV | +

eVTOL Control Mission & payload | Assisted / manual / auto

Fly-by-wire Onboard joystick & display

**High Reliability** Full redundant | Fail operational

Sense & Avoid Radar | Lidar | Camera | ADS-B | Remote ID

**Internal Sensors** 6x IMU | 6x magneto | 6x barometer | 3x pitot

9x GNSS | RTK | GNSS heading **Positioning** 

Communications 3x LOS & 4G | External LOS, LTE, Satcom

#### **USER PROGRAMABLE**

**Programs** Model based design | User Programs

**Phases** Takeoff | Landing | Cruise | Hover | Transition | + Failsafe | Phase change | Operation | Payload **Automations** Navigation Sensor mix | Kalman filter | External sensors Pheripherals Gimbal | ADS-B | Altimeter | Cameras | Others Compatibility Custom protocols | Mission computer | STANANG

#### 1/0

PWM/GPIO | ADC Ports

**Buses** CAN | I2C | RS232 | RS485 | Ethernet | ARINC

Expandible Veronte CEX | Up to 32 actuators

#### **SAFETY & CERTIFICATION**

3 Autopilot cores | Distributed redundancy Redundancy

Distributed management boards Fail-operational

Customizable Configurable voting logics

Robustness No single point of failure | Redundant bus

Certification DO178-C | DO254 | DO160-G

# 40 mm 64 mm

75 mm

#### **GENERAL**

**Power Input** 6.5 – 36VDC | Redundant power input

Power 3x 5-15W Temperature Range -40 to 60°C

Weight (per core) 198g

[P008285] Veronte Autopilot DRx - w/o DAA v4.10 [P008625] Veronte Autopilot DRx - Remote ID v4.10

[P008626] Veronte Autopilot DRx - ADS-B v4.10
